

**Product name:** 15% Boron

**SECTION 1: Identification**

**Product identifier used on the label:**

**Product Name:** 15% Boron.

**Other means of identification:**

**Synonyms:** None available  
**Product Code Number:** 2BR150000K00, 2BR1515ULT00, 2BR1520ULB50.  
**SDS number:** CC005US

**Recommended use of the chemical and restrictions on use:**

**Recommended use:** Fertilizer Micronutrient Additive.  
**Recommended restrictions:** Not intended for human consumption.

**Name, address, and telephone number of the chemical manufacturer, importer, or other responsible party:**

**Company Name:** Cameron Chemicals, Inc.  
**Company Address:** 830 Old Dill Road,  
Suffolk, VA 23434  
**Company Telephone:** (757) 934-2142  
8.00am to 5.00pm  
  
**Company Contact Name** Mark Whitfield  
**Company Contact Email** mwhitfield@cameronchemicals.com  
  
**Emergency phone number:** Chemtrec USA: 800-424-9300 (24hrs)

**SECTION 2: Hazard(s) identification**

**Classification of the chemical in accordance with paragraph (d) of §1910.1200:**

**Physical hazards**

No physical hazards under GHS.

**Health hazards**

No health hazards under GHS.

**Environmental hazards**

Not adopted under OSHA GHS

**GHS Signal word:** Not a hazardous substance or mixture.

**GHS Hazard statement(s):** Not applicable

**GHS Hazard symbol(s):** Not applicable

**GHS Precautionary statement(s):** Not applicable

**Hazard(s) not otherwise  
Classified (HNOC):** None known.

**Percentage of ingredient(s) of unknown acute toxicity:**  
Not applicable.

### SECTION 3: Composition/information on ingredients

**Mixture:** Non-hazardous Ulexite mixture.

Chemical name	CAS#	Concentration (weight %)
Ulexite	1319-33-1	95 - 99%

Note: The balance of the ingredients are not classified as hazardous or are below the concentration limit to be classified as hazardous, under the criteria of the Federal OSHA Hazard Communication Standard 29CFR 1910.1200.

### SECTION 4: First-aid Measures

**Description of necessary measures:**

**Inhalation:** Remove to a fresh air environment. Seek medical attention if irritation persists.

**Skin contact:** Wash with plenty of water. Seek medical attention if irritation persists.

**Eye contact:** Wash with running water for at least 15 minutes. Seek medical attention if irritation persists.

**Ingestion:** Induce vomiting (lean victim forward to reduce risk of aspiration). Never induce vomiting or give anything by mouth if the victim is unconscious or having convulsions. Obtain medical attention.

**Most important symptoms/effects, acute and delayed:**

Occasional mild irritation effects to the nose and throat may occur from inhalation. Eye irritation may occur.

**Indication of immediate medical attention and special treatment needed, if necessary:** If any symptoms are observed, contact a physician and give them this SDS sheet. Treat symptomatically.

#### **SECTION 5: Fire-fighting measures**

**Suitable extinguishing media:** Product is not combustible. Use extinguishing media that is suitable for surrounding materials.

**Unsuitable extinguishing media:** None known.

**Specific hazards arising from the chemical:**

None expected.

**Special protective equipment and precautions for fire-fighters:** Wear self-contained breathing apparatus and protective clothing. In addition, wear other appropriate protective equipment as conditions warrant (see Section 8).

#### **SECTION 6: Accidental release measures**

**Personal precautions, protective equipment and emergency procedures:** Ensure adequate ventilation. Evacuate personnel to safe areas. Wear appropriate protective equipment, including respiratory protection, as conditions warrant (see Section 8). See Sections 2 and 7 for additional information on hazards and precautionary measures.

**Methods and materials for containment and cleaning up:**

Small Spills: Sweep up and try to keep dust to a minimum.

Large Spills: Sweep up and try to keep dust to a minimum.

Containment: Do not release into sewers or waterways.

See Section 13 for information on appropriate disposal.

#### **SECTION 7: Handling and Storage**

**Precautions for safe handling:** Avoid contamination of food, feed, domestic or irrigation water supplies, lakes, streams and ponds. Use proper safety equipment at all times. Use good personal hygiene practices and wear appropriate personal protective equipment (see section 8). Wash hands before breaks and at the end of work. Clothing being used around chemicals should be cleaned daily.

**Conditions for safe storage, including any incompatibles:**

Store materials in a cool dry place. Store only in the original container. Keep container tightly closed.

**SECTION 8: Exposure controls/personal protection**

**OSHA permissible exposure limit (PEL), American Conference of Governmental Industrial Hygienists (ACGIH) Threshold Limit Value (TLV), and any other exposure limit used or recommended by the chemical manufacturer, importer, or employer preparing the safety data sheet, where available:**

Substance	PEL-TWA (8 hour)	PEL-STEL (15 min)
Ulexite	15 mg/m <sup>3</sup> - total dust 5 mg/m <sup>3</sup> - respirable dust	None known

US ACGIH Threshold Limit Values			
Substance	TLV-TWA	TLV-STEL	REMARKS
Ulexite	2 mg/m <sup>3</sup>	6 mg/m <sup>3</sup>	n/a

US NIOSH Recommended Exposure Limits		
Substance	TLV-TWA	TLV-STEL
Ulexite	10 mg/m <sup>3</sup>	None known

**Appropriate engineering controls:** Provide general or local exhaust ventilation systems to maintain airborne concentrations below OSHA PELs. Local exhaust ventilation is preferred because it prevents contaminant dispersion into the work area by controlling it at its source.

**Individual protection measures, such as personal protective equipment:**

**Eye/face protection:** Wear protective eyeglasses or chemical safety goggles, per OSHA eye- and face-protection regulations (29 CFR 1910.133). Contact lenses are not eye protective devices. Appropriate eye protection must be worn instead of, or in conjunction with contact lenses.

**Skin and Hand protection:** Wear protective gloves, boots, and aprons to prevent prolonged or repeated skin contact.

Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

**Respiratory protection:** Seek professional advice prior to respirator selection and use. Follow OSHA respirator regulations (29 CFR 1910.134) and, if necessary, wear a MSHA/NIOSH-approved respirator. Select respirator based on its suitability to provide adequate worker protection for given working conditions, level of airborne contamination, and presence of sufficient oxygen. If respirators are used, OSHA requires a written respiratory protection program that includes at least: medical certification, training, fit-testing, periodic environmental monitoring, maintenance, inspection, cleaning, and convenient, sanitary storage areas.

**Other:**

Safety Stations: Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

Contaminated Equipment: Separate contaminated work clothes from street clothes. Launder before reuse. Remove this material from your shoes and clean personal protective equipment.

Comments: Never eat, drink, or smoke in work areas. Practice good personal hygiene after using this material, especially before eating, drinking, smoking, using the toilet, or applying cosmetics. Consider periodic medical exams of exposed workers with emphasis on skin, respiratory, and blood screening.

**Thermal hazards:** None established.

**SECTION 9: Physical and chemical properties**

<b>Appearance (physical state, color, etc.):</b>	Granular solid
<b>Color:</b>	White.
<b>Odor:</b>	No odor.
<b>Odor threshold:</b>	Not determined
<b>pH:</b>	No data available
<b>Melting point/freezing point:</b>	No data available
<b>Initial Boiling Point and boiling range:</b>	No data available
<b>Flash point:</b>	No data available
<b>Evaporation rate:</b>	No data available
<b>Flammability (solid, gas):</b>	Not flammable
<b>Upper/lower flammability or explosive limits</b>	
<b>Flammability limit – lower (%):</b>	No data available
<b>Flammability limit – upper (%):</b>	No data available
<b>Explosive limit – lower (%):</b>	No data available
<b>Explosive limit – upper (%):</b>	No data available
<b>Vapor pressure:</b>	No data available
<b>Vapor density (air=1):</b>	No data available
<b>Relative density (water = 1):</b>	1.1 – 1.5
<b>Solubility(ies):</b>	Partially Soluble
<b>Partition coefficient</b>	
<b>n-octanol/water:</b>	No data available
<b>Auto-ignition temperature:</b>	No data available
<b>Decomposition temperature:</b>	Not established
<b>Viscosity:</b>	No data available
<b>Density:</b>	48 lbs Cubic Foot

**SECTION 10: Stability and Reactivity**

**Reactivity:** Stable.

**Chemical stability:** This product is stable at room temperature in closed containers under normal storage and handling conditions.

**Possibility of hazardous reactions:** Hazardous polymerization cannot occur.

**Conditions to avoid:** Avoid moisture.

**Incompatible materials:** Incompatible with oxidizing agents, acids, reducing agents and sources of ignition. Reaction with strong reducing agents such as metal hydrides will generate hydrogen gas which could create an explosive hazard.

**Hazardous decomposition products:** None expected.

## SECTION 11: Toxicological information

### Information on likely routes of exposure:

**Inhalation:** Inhalation is the most significant route of exposure in occupational and other settings. Prolonged exposure to high concentrations of dust may cause mild irritation to the respiratory system.

**Ingestion:** Not an expected route of entry.

**Skin:** Not an expected route of entry.

**Eyes:** Not a primary route of entry but may cause irritation.

**Target Organ(s):** Eyes, Respiratory system.

### Symptoms related to the physical, chemical, and toxicological characteristics:

Eye irritation may occur.

### Delayed and immediate effects and chronic effects from short or long-term exposure:

Prolonged exposure to high concentrations of dust may cause mild irritation to the respiratory system.

### Numerical measures of toxicity:

#### Acute toxicity estimates:

##### Ingredient Information:

Substance	Test Type (species)	Value
Ulexite	LD <sub>50</sub> Oral (Rat)	2660 mg/kg
	LD <sub>50</sub> Dermal (Rat)	No data available
	LC <sub>50</sub> Inhalation (Rat)	No data available

**Skin corrosion/irritation:** Not expected to cause skin irritation.

**Serious eye damage/eye irritation:** May cause eye irritation.

**Respiratory sensitization:** No information available on the mixture, however none of the components have been classified as a respiratory

sensitizer (or are below the concentration threshold for classification).

**Skin sensitization:**

No information available on the mixture, however none of the components have been classified as a skin sensitizer (or are below the concentration threshold for classification).

**Germ cell mutagenicity:**

No information available on the mixture, however none of the components have been classified as causing germ cell mutagenicity (or are below the concentration threshold for classification).

**Carcinogenicity:**

No information available on the mixture, however none of the components are listed in the National Toxicology Program (NTP) Report on Carcinogens (latest edition) or has been found to be a potential carcinogen in the International Agency for Research on Cancer (IARC) Monographs (latest edition), or by OSHA.

**Reproductive toxicity:**

No information available on the mixture, however none of the components have been classified as causing reproductive toxicity (or are below the concentration threshold for classification).

**Specific target organ toxicity-  
Single exposure:**

No information available on the mixture, however none of the components have been classified as Specific target organ toxicity, single exposure (or are below the concentration threshold for classification).

**Specific target organ toxicity-  
Repeat exposure:**

No information available on the mixture, however none of the components have been classified as causing Specific target organ toxicity, repeat exposure (or are below the concentration threshold for classification).

**Aspiration hazard:**

No information available on the mixture, however none of the components have been classified as causing an aspiration (or are below the concentration threshold for classification).

**SECTION 12: Ecological information**

**Ecotoxicity (aquatic and terrestrial, where available):**

**Ingredient Information:**

Substance	Test Type	Species	Value
Ulexite	LC <sub>50</sub>	Fish – <i>S.gairdneri</i> (Goldfish)	178 mg/l - 96h
	EC <sub>50</sub>	Invertebrate - <i>Daphnia magna</i> (Water flea)	133 mg/l - 48h
	EC <sub>50</sub>	Algae	No data available

**Persistence and Degradability:** Not determined  
**Bioaccumulative Potential:** This material is not expected to bioconcentrate in fish.  
**Mobility in Soil:** On soil this product may leach into the groundwater. Because it is slightly soluble, removal by rain, snow or other precipitation is possible  
**Other adverse effects (such as hazardous to the ozone layer):** No additional information available.

**SECTION 13: Disposal considerations**

**Description of waste residues and information on their safe handling and methods of disposal, including the disposal of any contaminated packaging:**

**Product** - Contact your supplier or a licensed contractor for detailed recommendations. Follow applicable Federal, state, and local regulations. This product has been evaluated for RCRA characteristics and should not meet the criteria of a hazardous waste if discarded in its purchased form. Under RCRA, it is the responsibility of the user of the product to determine at the time of disposal, whether the product meets RCRA criteria for hazardous waste. This is because product uses, transformations, mixtures, processes, etc., may render the resulting materials hazardous.

**Contaminated packaging** - Contaminated packaging may contain residues of product. Dispose of in the same manner as product. Comply with applicable local, state or international regulations concerning solid or hazardous waste disposal and/or container disposal.

**SECTION 14: Transport Information**

**Land transport DOT**

UN number Not regulated under DOT  
 UN proper shipping name Not applicable  
 Transport hazard class(es) Not applicable  
 Packing group, if necessary Not applicable

**Maritime transport IMDG**

UN number Not regulated under IMDG  
 UN proper shipping name Not applicable  
 Transport hazard class(es) Not applicable  
 Packing group, if necessary Not applicable

**Air transport ICAO-TI and IATA-DGR**

UN number	Not regulated under IATA
UN proper shipping name	Not applicable
Transport hazard class(es)	Not applicable
Packing group, if necessary	Not applicable

**Environmental hazards**

Marine pollutant: No.

**Transport in bulk (according to Annex II of MARPOL 73/78 and the IBC Code)**

No further relevant information available.

**Special precautions which a user needs to be aware of, or needs to comply with, in connection with transport or conveyance either within or outside their premises.**

None.

**SECTION 15: Regulatory Information**

**Safety, health and environmental regulations specific for the product in question.**

**USA:**

**United States Federal Regulations:** This SDS complies with the OSHA, 29 CFR 1910.1200. This product is not //hazardous under OSHA.

**Toxic Substances Control Act (TSCA)** – This substance is listed, as required, on the TSCA inventory.

**SARA Title III**

**Section 302 Extremely Hazardous Substance (40 CFR 355, Appendix A):** None

**Section 311/312 (40 CFR 370):**

**Acute Health Hazard:** No

**Chronic Health Hazard:** No

**Fire Hazard:** No

**Pressure Hazard:** No

**Reactivity Hazard:** No

**Section 313 Toxic Release Inventory (40 CFR 372):** No components are listed.

**STATE REGULATIONS:**

This SD'S contains specific health and safety data is applicable for state requirements. For details on your regulatory requirements you should contact the appropriate agency in your state.

**California Proposition 65 (California Safe Drinking Water and Toxic Enforcement Act of 1986:**

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

**Massachusetts Right to Know:** No components are listed.

**New Jersey Right to Know:** No components are listed.

**Pennsylvania Right to Know:** No components are listed.

**SECTION 16: Other information, including date of preparation or last revision**

Revision Date: Oct 02, 2015

**NFPA Rating**

Health hazard: 1

Fire Hazard: 0

Reactivity Hazard: 0

This document is generated for the purpose of distributing health, safety, and environmental data. Information is correct to the best of our knowledge at the date of SDS publication.

It is not a specification sheet nor should any displayed data be construed as a specification.

The information on this SDS was obtained from sources which we believe are reliable. However, the information is provided without any warranty, expressed or implied, regarding its correctness. Some information presented and conclusions drawn herein are from sources other than direct test data on the substance itself. The conditions or methods of handling, storage, use and disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, WE DO NOT ASSUME RESPONSIBILITY AND EXPRESSLY DISCLAIM LIABILITY FOR LOSS, DAMAGE, OR EXPENSE ARISING OUT OF OR IN ANY WAY CONNECTED WITH HANDLING, STORAGE, USE, OR DISPOSAL OF THIS PRODUCT. If the product is used as a component in another product, this SDS information may not be applicable.
